Ryan Johnson

Web Developer

I am a Web Developer working with multiple technologies including HTML, CSS, Javascript, React, Redux, Typescript, Git/Github, Bootstrap, Firebase, Photoshop, and always continuing to learn more! I have an eye for design and color theory, and I place a high importance on clean and dry code, in order to make everything intuitive and readable. Please take a look at my portfolio to see examples of my work.

- Javascript
- Typescript
- Redux
- HTML
- CSS
- Git/Github
- Firebase
- Photoshop

Experience

2023 - Current
SalesLabX | 600 Congress Ave, Austin, TX 78701
Front-End Web Developer L2

Promoted from Junior Web developer L1. I contributed to digital marketing efforts by creating visually appealing and responsive email templates and landing pages in Pardot as well as Salesforce Marketing Cloud for a wide variety of our partnered companies. Utilizing HTML, CSS, and Javascript to ensure cross-browser compatibility, mobile responsiveness, and a seamless user experience. Collaborating with the Account Coordinator team and Design team to understand campaign objectives, implement interactive elements for enhanced engagement, and conduct testing to maintain high-quality standards. Additionally developing in-house tools for the Development team in order to streamline our workflow, and reach a higher efficiency.

2021 - 2022
Collabtech Group | 7645 E Ray Rd #125, Mesa, AZ 85212
Collaboration Technician

I delivered comprehensive email-based product support to the company's partners, Logitech and Lenovo. My responsibilities encompassed diagnosing and troubleshooting a wide range of video conferencing solutions and collaboration technologies. This included addressing issues related to cameras, touch panel accessories, microphones, computing units, and various other components essential to their operations.

2019 - 2021
BCBS of AZ | 2444 W Las Palmaritas Dr, Phoenix AZ 85021
Website Support Specialist

I provided account support and assisted with password resets through phone and email channels, catering to users of Blue Cross Blue Shield of Arizona's primary website, azblue.com. Additionally, I facilitated the reporting of website-related problems to the development team for further investigation and diagnosis.
